

EYELASH EXTENSIONS Q & A

It is now possible to create fuller, lashes with added volume that can look as natural or as glamorous as your wish.

Only £55 for a full set of Semi Permanent Eyelash Extensions – not to be missed, average maintenance cost from £15 only!!

Individual lightweight eyelash extensions are bonded and blended into your existing lashes one by one to create noticeable extra length and volume and will feel just like your own.

Is it uncomfortable to have them applied?

Not at all, most people find having eyelash extensions a relaxing experience. You will be comfortably reclined with your eyes closed and your bottom lashes protected while Eyelash Extensions are applied individually to your natural eyelashes. Application of one set of eyelash extensions generally takes between 90 to 120 minutes. The procedure is so tranquil & comfortable that many clients fall asleep. Touch ups can be done in as little as 45 minutes to 1 hour.

Do I have to have regular maintenance?

It is totally up to you the client. Maintenance is not required if you choose to have Eyelash Extensions applied for a special occasion or a holiday. The semi permanent eyelashes will gradually grow/fall out with your natural eyelashes as part of the normal hair growth cycle.

However, lots of people love the look they create and have regular maintenance.

Are the lashes good for holidays?

Yes, absolutely perfect, particularly for swimming, Chlorine will not affect the lashes and they will look gorgeous, thicker & longer, just perfect for lying around the pool.

Can I apply mascara to Eyelash Extensions?

Indeed, one of the main advantages of Eyelash Extensions is that it will give you a thicker darker look so you may never need mascara again. However, if you choose to wear mascara, only water based mascara can be used. You can purchase a special formulated Eyelash Extensions mascara separately that is specific for the eyelash extensions which only needs to be applied to the tips and can be removed with warm water. **Marvel Lash Mascara £12.00**

How long do the lash extensions last?

Between 4-8 weeks depending on the life cycle of your own natural lashes (when we lose natural lashes, we lose the lash extensions with them), other factors such as swimming, exercising, sleeping, etc, and general care of the lash extensions can affect how long your lash extensions will last.

Various lengths, thickness and colours are available to create your perfect eyelash extensions, your therapist will advise you before your treatment or you can come in for a free consultation.

How do I take care of Eyelash Extensions?

Your new Eyelash Extensions are long, thick and beautiful! Once applied, they can last up to 2 months. Best of all, they are easy to maintain.

To maintain this look and extend the life of your lashes, follow these easy care instructions:

Do not wash eyes or shower for 24 hours after lash application.

Do not swim, spa or sauna for 48 hours after lash application to allow adequate time for bonding.

Be gentle with your lashes. Too much rubbing can disturb the bonding agent.

Avoid rubbing your eyes. Or picking at the glue.

Avoid oil-based eye make up remover and waterproof mascara. If you must wear mascara on your extensions only use it on the tips!

PLEASE DO NOT WEAR MASCARA TO YOUR APPOINTMENTS
